

NOTICE OF ROADWAY IMPROVEMENTS

BOLLINGER CANYON ROAD PAVEMENT RESURFACING PROJECT

(FROM N. DOUGHERTY ROAD TO S. DOUGHERTY ROAD)

Planned Construction Period: July to September, 2015

The construction of Bollinger Canyon Road Pavement Resurfacing Project is scheduled to begin within the next two weeks. The pavement resurfacing work is planned to be constructed on normal working days between the hours of 8:00 a.m. to 5:00 p.m.

The proposed improvements will include: asphalt concrete pavement repairs; pavement crack seal and micro-surfacing treatments; and pavement striping and markings installations. Construction phase of the project is scheduled for completion by September, 2015.

In order to complete the proposed improvements, lane closures and traffic controls will be established. These traffic control measures will temporarily reduce the width of the roadway to a single lane in each direction during certain hours. Various portions of the roadway between N. Dougherty Road and S. Dougherty Road may be temporarily blocked as the work progresses; however, the Contractor will be required to maintain access to all cross street intersections.

The City asks for your cooperation and consideration while construction is underway. Please drive carefully through the construction zones. While the project has been planned to minimize impacts to the traveling public, some construction impacts and inconvenience cannot be avoided. As with any major roadway construction, traffic delays and temporary lane closures should be expected.

The City has contracted with RGW Construction, Inc. of Livermore to perform the roadway improvement work. The following contact information is provided in case you have questions or concerns regarding this project:
